

## Migration Options

### CloudGuardian 365 Kick-Start

**£250 + VAT per domain setup**

Required for every project. We will setup your Microsoft Office 365 domain, verify your domain name, configure your domain to best practice, pull together the information required for a successful migration and add all users via a client-provided CSV file.

- This option includes post-migration project close-down tasks to ensure a polished Office 365 environment at the end of the project.
- This does not include Active Directory sync or Single Sign-On.

### CloudGuardian 365 Bronze

**£30 + VAT data migration per mailbox**

We will manage the process of copying data from your old e-mail system into Microsoft Office 365 in co-ordination with another team (usually the on-site IT support team) who will lead the project and perform all desktop preparation tasks.

- We will create a connection between your old e-mail system and Office 365 for data migration.

### CloudGuardian 365 Silver

**£75 + VAT desktop preparation and data migration per mailbox, per user**

As per Bronze level, in addition we will manage the project and perform the desktop preparation tasks for all of your users, installing patches and connecting Outlook to Microsoft Office 365.

### CloudGuardian 365 Silver+

**£700 + VAT day rate (7 hours)**

We will manage all tasks to Silver level on-site at your office. This can be used in conjunction with remote Silver level so that there is a migration team consisting of people working both on-site and remotely.

- Includes 6 x CloudGuardian Silver migrations.

### CloudGuardian 365 Gold

**£125 + VAT desktop preparation and data migration per user**

As per Silver level, in addition we will upgrade your Microsoft Office suite to either 2013 or 2010 and patch it to the latest service pack.
